1 Box of Card Stock	\$130.00
137 Bundles of Plush Animals	\$1,232.00

TOTAL: \$ 5,000

Narrative summary of grant related activities

Head Start teachers communicated with Head Start parents about the Summer Fun Learning Kits (SFLK). They explained that the SFLKs were full of learning materials and Learning Cards to be used over the summer when the children were not in school. The Learning Cards provide specific activities for parents to do with their children. Every Head Start child received SFLKs during the last week of school. Thanks to the Tipping Point grant and two other donors, we were able to provide each Head Start child with a plushy this year. The short, four-question survey on the parent's use of the SFLK materials over the summer will be conducted at the beginning of the next school year.
