

Justice System Data Update

Presented by

Lee Crayton

Strategy & Innovation

Behavioral Health & Jail Population

- Current data does not provide us with answers to the questions that have been raised:
 - What percent of the population is impacted by substance use and mental health issues?
 - Are we seeing increases in bookings and daily population?
- This information is captured for those who remain in custody, but we currently do not have access to it.
- Working to improve access
 - Detention Facility
 - Opioid Settlement Process

Available County Justice System Data

Several dashboards are publicly available via Buncombe County's Transparency Page - <https://www.buncombecounty.org/transparency>

- Average daily population
- Bookings and releases
- Active pretrial population secured bond amounts
- Active population average length of stay
- Safety and Justice Challenge performance measures
- Diversion services
