

Buncombe County Board of Commissioners
October 15, 2024
Public Comment

The Board of Commissioner's October 15, 2024 meeting was held remotely pursuant to N.C.G.S. 166A-19.24 while operating in a State of Emergency in response to Tropical Hurricane Helene.

Public Comment was accepted by two means: 1) written comments to the Clerk; 2) sign up with the Clerk for live remote comments by Sunday, October 13 at 5:00 p.m.

There were no sign-ups received for live public comment. Below are the two written comments received.

How many people died in Buncombe County due to Hurricane Helene?

His many people are still missing?

Why are the answers to these 2 questions kept secret? Deaths from Katrina was widely communicated. Every day the media communicated the number of deaths due to Covid throughout the pandemic.

Why did it take 9 days to send the 82nd Airborne to help with search and rescue?

As an Arden resident, I've found that most information has been geared toward the greater Asheville area. Is there a place closer than east Asheville or Weaverville for trash drop off? Is there a deadline for vegetative debris collection in Arden area?
